COOK COUNTY JUDGE RULES HE
HAS JURISDICTION IN MUR-
DER CASE.

LUDENS ASKS FOR \$40,000

After Losing First Battle Whiteside
Prosecutor Asks for Big
Bonds.

(By Staff Correspondent.)

Chicago, Oct. 14.—After hearing arguments in the matter of the habeas corpus proceedings in behalf of Mrs. Emma Hutton and Miss Lillian Byers, who are held on a charge of murder, Judge Petit of the Cook County Criminal Court this noon ruled that he had jurisdiction in the case; and that inasmuch as the prosecuting officials of Whiteside county had failed to show that the two women had been given a hearing before Judge Ramsay on the petition for bail, he would hear evidence that they should be admitted to bail.

Evidence at 4 O'Clock

After losing his first fight State's Attorney Ludens of Whiteside county immediately asked that bail, if allowed, be placed at \$40,000 each. Judge Petit adjourned court until 4 o'clock at which time he will hear the evidence.

In Self Defense.

Attorney Charles E. Erbstein of the defense stated to the court that he would show that Emmanuel Byers, the slain man, had attacked Mrs. Hutton with a pitchfork and that the shots which killed him were fired in self defense.

R. V. THORNE OF AMBOY IS DEAD

SUCCUMBED SUDDENLY TO AN
ATTACK OF HEART TROUBLE
TUESDAY.

(Special to The Telegraph.)

Amboy, Oct. 14.—R. V. Thorne, a prominent farmer of Amboy township, succumbed to an attack of heart failure late yesterday afternoon. Mr. Thorne had been doing the evening work in the barn when he had a slight sinking spell. He walked out of the barn and sat down upon a box but before help could reach him, life was extinct. This was only one of many attacks the deceased has suffered in the past few months.

Mr. Thorne was the father of L. C. Thorne, president of the Sterling and Rock Falls Commercial Club and agent of the C. B. & Q. railway. His wife preceded him in death June 30th.

Dr. James Thorne, of Janesville, Wis., is another son who survives.

The funeral of the pioneer settler, who was 83 years of age, will be held Friday afternoon at 2 o'clock from the Congregational church, of which he was a member and a deacon in the institution. Rev. Appleman will have charge of the services. The many friends of the old gentleman are greatly grieved over his death.

School district No. 16, in Hamilton township, known as the Mekeel school, has been added to the list of standard schools of this county. Miss Julia Callahan is the teacher and the Board of Directors are Joseph Bauer, A. A. Mekeel and John Miller.

Mrs. Reidmann Again Writes of Troubled Germany

The Telegraph is privileged to present herewith, through the courtesy of Mrs. George Campbell, another interesting diary letter received by her from her sister, Mrs. Tonio Riedemann, of Hamburg, Germany. Mrs. Riedemann's observations are personal, and are extremely interesting, inasmuch as they tell of many details which pertain to the home life and home sufferings of the faithful Germans. The first of Mrs. Riedemann's letters appeared in the Telegraph last Friday. The second, which follows, is fully as interesting:

SAYS HER BROTHER ATTACKED MOTHER

MRS. ADA MICK OF SOUTH DIXON, IN INTERVIEW WITH CHICAGO
NEWSPAPER MEN MAKES MURDERED MAN OBJECT OF
ATTACK IN STATEMENT.

Mrs. Ida Mick of South Dixon township, who is well known in Dixon, a sister of Emmanuel Byers and his sisters, Mrs. Emma Hutton and Miss Lillian Byers, who are charged with his death, is quoted in the Chicago American as follows:

"Our brother had always been crazy, we think. I have often heard my father say when the boy did some thing wrong that he felt more sorry for him because he was 'off' than for what he had actually done.

Mother Not Exception.
"As far back as I can remember we were always running from a violent, cursing, threatening brother. He beat us and everybody else he could reach. He seemed to have it in for the world. And he did not stop at my mother. It is against her that he committed some of his worst atrocities.

"He was terribly cruel to animals and fowls as a boy and would subject them to frightful horrors—and then dance about enjoying their agony. At school he would bring birds that he had caught into the room and keep them in his desk and torture them. We had a game we called 'Fig Mill' and if we didn't let him win he beat us.

"When he was thirteen years old is when I remember his first beating of my mother. He came up behind her, just out of devilishness, hit her with a sharp stick and then slapped her face.

They Called Him 'Pet.'

"The peculiar part of it was that she loved him despite what he did to her—what he made her suffer up to her dying day. His name was Emmanuel, but she called him 'Pet'—and so did we.

"He broke quantities of dishes, throwing them at us. Once he threw a broken cut at father which cut him over the eye so that it bled. 'Pet' laughed and ran out of the house. Often he hit one or another of us with a clod of earth or a heavy kind of watermelon, and seemed delighted that we were frightened or hurt. He always managed to hit us in the eye.

"If something didn't suit him he threatened to kill the one that offended. All these things, mind you, were kept from the community, because we were too proud to talk against him when he was grown, and he was clever enough to speak against us as if he were the martyr.

Punches Mother's Face.

"Once when he had grown, my sister Laura, who is in the east now, did not bring in the cows to suit him. He rushed at her swearing frightfully. Mother came when Laura screamed and spoke to him over the fence. He grabbed her head, held it with one hand and punched her face terribly with the other.

"She bore the marks for a week.

RAYMOND ROBINS IN SPEECH LAST NIGHT

PROGRESSIVE CANDIDATE DELIVERED SAME SPEECH AS
IN 1912.

IS A SPLENDID ORATOR

Wizzard With Words, Mr. Robins Is
An Interesting Figure on the
Lecture Platform.

Raymond Robins, Progressive candidate for United States senator, delivered an eloquent address last evening to a fair audience in the Dixon Opera House. His speech was practically the same one delivered by him two years ago in Dixon, was listened to very attentively, and was a masterpiece of oratory and opened up many lines of thought. Raymond Robins is a great orator.

The Dixon Marine band was upon the stage, as well as the various county and legislative candidates from this district. The meeting was presided over by Attorney W. H. Winn, county chairman of the Moose.

After an enjoyable concert by the Dixon Marine band, chairman Winn introduced the "Dixie Quartette," of Dixon, which gave several fine songs during the evening. The Dixon young men who compose the quartette are: Harry Jones, Fred Cheney, Carl Hess and Glenn Burrs.

Frank Giffin of Paw Paw made the first speech of the evening, in which he attacked the Republican and Democratic parties. He especially mentioned the Democratic economic mis-management.

Chairman Winn introduced Raymond Robins, who he said was running on the qualification that he loves his fellow man.

Mr. Robins started out by saying that his election was of but small moment to himself and he did not care whether he was elected or not only that he was interested in the welfare of the nation and he believed the best way to serve the nation was

HOTEL THREATENED BY WILD ANIMALS

NACHUSA TAVERN WAS THE SCENE OF GREAT EXCITEMENT THIS
MORNING WHEN CIRCUS MENAGERIE ARRIVES
FROM CHICAGO, HUNGARY.

Nachusa Tavern was the scene of considerable excitement this morning when Landlord M. E. Rice ordered the removal from the popular hotel of the menagerie for the great Society Circus and Hippodrome, which will be given at the opera house tomorrow and Friday evenings for the benefit of the Katherine Shaw Betha hospital.

The menagerie arrived from Chicago in the early morning and early risers marvelled at the number and species; but in addition to the rain the "collection" experienced more than the usual amount of trouble for the director of the performance, Mr. Rice would not allow the "animals" to put up at his hotel—for they had not been fed for several days, and the safety of his guests demanded that the cages be placed elsewhere. Consequently the menagerie is being parked at the Gannon Memorial Park on College avenue.

The menagerie of this big show is

the most complete in captivity and will surely arouse interest at the circus. None of the "animals" will be fed until after the performances, therefore it is certain that they will be "on their toes" during the show and will perform at their very best—to earn a big dinner afterwards.

Early Performances.

Mrs. Wallace, who is proprietor and manager of this great galaxy of glorious attractions, announces that the performances will commence each evening at 8 o'clock promptly. This hour is absolute, and whether the patrons are all in their seats or not at that hour the grand event will take place and the biggest show of its kind in all creation and part of Columbia will commence.

The popcorn, peanut, balloon and pop concessions have all been let for the season and therefore even this detail of a real, sure enough circus will not be missing tomorrow evening.

ALBERT O'MALLEY BROKE HIS LEG

Albert O'Malley of Sterling was taken to the Dixon hospital for treatment Tuesday morning. A week or ten days ago Mr. O'Malley fell from his chair, breaking one of the bones of his leg. Although he suffered much the break was not discovered until Sunday. Owing to his serious condition it was decided to bring him to the Dixon hospital, where he might receive treatment and when the injury could be set.

MOBILIZE TOMORROW.

(Associated Press.)
London, Oct. 14.—Portugal has not yet declared war on Germany but it is learned that a partial mobilization of her troops has been ordered for tomorrow. It is reported that martial law has been proclaimed throughout Portuguese Congo.

(Associated Press.)

London, Oct. 14.—Out of the mass of wholly irreconcilable assertions regarding the European war today has emerged the seemingly established fact that the Germans are attempting to repeat the rapid sweeping movement which five weeks ago took them almost to the gates of Paris.

The intermingling of the armies on the battle front of 100 miles appears today to be as chaotic as is the news concerning the operations, as furnished by the different headquarters.

PORTUGAL GETTING READY

Dispatches from Lisbon, Portugal, say that the German minister to that country is about to leave for Madrid and that the Portuguese congress will be convened Oct. 16 to pass a vote for the mobilization of its troops.

Another dispatch which lacks confirmation says that Portugal has declared war on Germany.

Ostend dispatches dated Oct. 11 say that "more than 600 Germans were killed and a large number were wounded in the engagements near Quatrecht and Melle, while the French marines charged with bayonets and took 400 prisoners. The battle was renewed in the neighborhood of Lyde this morning.

Therefore the manufacture and sale of the alum powder is prohibited.

Royal Baking Powder is extensively used privately and by the military forces throughout the world. That there was more truth than poetry in the statements that have been made this summer to the effect that the circulation in the pedal extremities of the members of the Sterling West Ends baseball team was seriously impeded, thereby allowing their feet to become chilled at the slightest provocation, is shown by the following from Tuesday's Sterling Gazette:

The Sterling West Ends have disbanded for the year. The weather is getting too cold for baseball and so the team has given up hopes of playing any more this season. The series with Dixon has been called off with three games for Sterling and two for Dixon.

"CASCARTS" RELIEVE SICK, SOUR STOMACH

MOVE ACIDS, GASES AND CLOGGED WASTE FROM LIVER AND BOWELS.

Get a 10 cent box now. That awful sourness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, dizziness and sick headache, means a disordered stomach, which cannot be regulated until you remove the cause. It isn't your stomach's fault. Your stomach is as good as any. Try Cascarets; they immediately cleanse the stomach, remove the sour, undigested and fermented food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels. Then your stomach trouble is ended. A Cascaret each night will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet; liver and bowels regular for months. Don't forget the children—their little insides need a good, gentle cleansing too.

UNITY OF CHRISTIAN CHURCH LESS REMOTE

THE REPORT SHOWS THAT IT IS FAST BECOMING A POSSIBILITY.

(The Associated Press) Atlanta, Ga., Oct. 13.—The unity of Christian churches is with each year becoming a less remote possibility, according to the report of the Commission of Christian Union which was presented at the General Convention of the Disciples of Christ here today.

The commission has been at work only four years. Headed by the Rev. Dr. Peter Ainslie of Baltimore, it has headquarters in that city, from which it has distributed more than 20,000 letters to all parts of the world in the interest of a more cordial relation among Christians of all names and creeds. It regards the barriers to cooperation among Christians in this day to be due largely to the lack of acquaintance. Its efforts have been given to remove suspicion and to create an atmosphere of confidence and friendliness.

The president of the commission with the Rev. Dr. Newman Smyth of the Congregational church and Rev. Dr. William H. Roberts of the Presbyterian church, visited the churches of Great Britain and Ireland last winter in the interest of a World Conference on Faith and Order. They secured the co-operation of all the Protestant communions. Later Dr. Ainslie, the president of the commission, returned to Europe as a delegate to the Church Peace Conference at Constance, which, however, was interrupted by the war, but he returned to America through England and there held conferences in the interest of Christian union.

The commission is giving its support toward a world conference to include all Christendom. Neither the time nor place has been set, but it is said preparations are maturing so that this announcement may be made at an early date.

The report of the commission, which is written by Rev. F. W. Burnham of Los Angeles, Cal., secretary of the commission, closes as follows: "It is now four years since the Council on Christian Union of the Disciples of Christ was founded at Topeka, Kas. When the commission first began its task it looked out upon a field where there were many possibilities, but a ground practically untouched so far as immediate, definite plans were concerned. After four brief years, with such time as busy men could devote to the service, we are well on the way toward the realization of some of our greatest aims."

A new literature on the subject, conceiving the task in its larger proportions and breathing a more irenic and brotherly spirit, is coming forth. The amount of thought and study now being devoted to the solution of the problems connected with the possible reunion of the divided Church of Christ is unprecedented in the history of Christianity. Yet but a beginning has been made. The Christian

world is awakening to this issue as never before. It cannot stop short of the realization of the answer of Jesus' prayer. Difficulties that were supposed to be insurmountable are now dwindling into insignificance under the clearer light and clearer fellowship of these days. Old barriers are breaking down and no man of leadership seeks to erect new ones."

GUNMAN TAKEN FROM SHERIFF AND LYNCHED

Two Dead, Two Wounded, As Result of Duel in Illinois Town.

Percy, Ill., Oct. 14.—A quarrel over a cigar which started in Willisville, Ill., has resulted in: A revolver duel, the murder of one man, the wounding of two men and the lynching of another. The climax to the quarrel came when a body of masked men appearing from the sides of a country road, covered Sheriff Bresner of Willisville with revolvers, took from him his prisoner, Albert Clazza, and poured a broadside of shots into him before the sheriff's eyes.

Clazza was an Italian miner, one of two brothers who engaged in the revolver duel with two American miners, Willis Adams and Ben Cooper. The trouble had its inception at Willisville in ill feeling that has existed for some time between Italian and American miners employed in the mines of the Willis Coal and Mining company.

Cooper and Adams were accosted by Sam Clazza, who asked one of the Americans for a cigar. Sam was accompanied by his brother, Albert. The Americans resented the manner in which he made the request and after a few words revolvers were drawn. The battle was over when Bresner and several citizens arrived. Sam Clazza lay dead in the street, three bullets having struck him. Cooper was unconscious, suffering from what his physicians say will be a fatal wound. Adams is wounded in the abdomen and there is little chance for him to live.

It is reported that Chaplain Patrick intends to present the resolution and a statement of the sentiment expressed by the convicts to the legislature.

BANKERS DISCUSS FEDERAL RESERVE

ANNUAL CONVENTION OF AMERICAN BANKERS' ASSOCIATION CONVENED TODAY.

ADDRESS BY PRESIDENT

Arthur Reynolds of Des Moines Discussed Provisions of Federal Act.

(By Associated Press.) Richmond, Va., Oct. 14.—The fortieth annual convention of the American Bankers Association which met here today brought the American bankers together in large numbers for the first time since the Federal Reserve Act was passed by Congress.

Arthur Reynolds of Des Moines, president of the Association, devoted the greater part of his opening address to the Federal Reserve scheme. He gave assurance that the country might rely upon the bankers to do their part toward making the system a success, notwithstanding their opposition to it in just the form adopted. He noted some of the fine points and its weaknesses, and advised the bankers how to adjust themselves to the change.

National bankers had submerged their opinions, he said, and were cordially coming to the support of the Federal Reserve banks, as required by the act, and a limited number of banks and trust companies organized under state laws had come into the system, "but not to the extent necessary to warrant the anticipation of that complete unification of our entire banking system so long desired."

The rule of the banker must be "safety first" he said in considering the difficulties the Federal Reserve banks would have in keeping imponderable all the means necessary to relieve sudden distress, and at the same time to rediscount freely enough to avert contraction of credit. "It will require rare wisdom, indeed," he said, "to meet so contradictory a situation."

No Inducements.

If there were any assurance that the Federal Reserve Banks would hold large deposits aside from those fixed by provisions of the act, he thought there might be a workable margin, but he saw no inducement for member banks to keep active accounts with the Federal Reserve banks beyond the amount of the required reserve. "Their commercial relations with the other banks of the country will always be more productive and at the same time conform with the natural trend of business," he said.

He continued: "With the practicability of the plan admitted the question that naturally propounds itself to those engaged in banking is, how will its operation affect the profits of their business. Reasoning from the fact that the Federal Reserve Banks will not enter into competition for the commercial business of the country and for the reason that they will be obliged to quote a rate of discount at least as high if not higher, than commercial rates in order to maintain the resources necessary to enable them to extend help in need, I believe the conclusion is warranted that in the future, as in the past rates of interest will be governed by the law of supply and demand."

"The Federal Reserve banks have no way of increasing the supply of actual money in existence; if they had, they might reduce rates. Their most efficient help in that connection may at times result from raising rates to stabilize conditions."

"It is only necessary to cite the fact that in those countries which depend upon central banks to maintain the stability of conditions which in their experience has prevented those panics to which we have been subjected, we find those central banks maintaining a discount rate always higher than the commercial rate in the same country."

Benefits Apparent.

"The benefits of the new system will be come apparent with the lapse of time. The change will be gradual and should be regarded as an evolution in the banking business, during which the bankers themselves must rely upon their own resources and conservation should be the watchword. Any effort to utilize the rediscounting privilege primarily for profit should be discouraged."

"It must always be kept in mind that to realize the chief object which Congress had in view the Federal Reserve banks must always be ready to extend help, they cannot maintain this position if the member banks keep them drained of their resources in ordinary times."

SHERMAN SEES BIG LANDSLIDE

DECLARES TAFT AND ROOSEVELT VOTE IS COMING TOGETHER.

CONDEMNS PRESENT RARRIF

Says Democrats Are Producers of Deficits Instead of Enough Revenue.

Aurora, Ill., Oct. 14.—A union of the Taft and Roosevelt vote of 1912 with a huge Republican landslide at the November election in Illinois was predicted last night by Senator Lawrence Y. Sherman at the close of the second day of his tour of the state in his quest for re-election.

"There is a general coming together of the Roosevelt and Taft vote," Senator Sherman said to an Aurora audience. "It is evident all over the state and has been caused by dissatisfaction with the administration policies of President Wilson and by general business stagnation."

"The Progressive party movement is splitting the Democratic vote this year as it split disastrously the Republican vote of two years ago."

Condemns Democratic Tariff.

Further on he said: "The Democratic tariff bill is a producer of deficits, not revenue. An accurate analysis of the receipts before the European war started points unerringly to a treasury deficit. The Democratic party was not responsible for lower rates on all imports since the war began. To supply this deficit, the Democratic party is the sponsor for the so called war tax bill."

Regarding his rivals for senator, he said:

"I have opposed Roger Sullivan ever since he was nominated. He represents all that is unsound in Democratic legislation. He proposes no remedy for our lost pay rolls, he gives the farmer no hope for a vanishing market, he only announces that he will support the Democratic policies."

"Raymond Robins says he is the most comprehensive apostle of social justice. When did he ever write a statute? What has he done to promote the laws he now favors? What were his political affiliations recently? A supporter of free silver and free trade. And now he is a single taxer."

"The Bull Moose candidate for senator claims to be a Progressive. If confiscation is progressive under the

Illinois Militia Ordered Ready to Assist Sheriff if Antagonism Continues.

Springfield, Ill., Oct. 14.—Upon the receipt of a report from Sheriff Frazer of Cairo, Governor Dunne wired Captain Roy Lutes of company K, I. N. G., to have his company ready to assist the sheriff in suppressing possible race riots.

The race antagonism followed the murder of Eli Johnson, a riverman, by one of two negroes who had attempted to rob him. Two negroes have been arrested, but they deny implication in the shooting. A third negro, whom the prisoners charge with the murder, still is at large.

SHAMPOO CAP

Rubber Shield With Eyeholes Fits Around Temples

Two New York women, who it is logical to presume were hair dressers, have devised a shampoo cap which is one of the simplest of all the apparatuses designed to give comfort in washing the hair. It is nothing more or less than a wide band of rubber with a clasp at the points of intersection and a little window set in the front to provide an eyehole. As will be understood, the rubber band is fastened around the temples at the roots of the hair and the face

Keeps Water Out of Eyes.

is completely protected from the soapy water. An unpleasant feature of a shampoo without some protection of this sort is the tendency of the soapy water to run into the eyes, mouth and nose. Equipped with the cap here shown a woman may have her hair washed or wash it herself without worrying about this annoyance, and if she is doing the job herself she can keep her eyes open and see what she is doing.

BOERS IN REVOLT IN SOUTH AFRICA

Rebels Are Led by Veteran of Transvaal War.

MARTIAL LAW IS PROCLAIMED

Britain Hears That Majority of Boers of Her Southern Cape Provinces Are Loyal—Col. Solomon G. Maritz Heads Seceders—Germany's Hand Is Seen.

Cape Town, via London, Oct. 14.—A serious revolt has broken out in the northwest of the Cape provinces and Lord Buxton, governor general of the union has proclaimed martial law throughout every part of the territory.

The rebels are led by Col. Solomon G. Maritz, who fought in the Boer war and who has been military commandant of the northwest Cape provinces.

Dissatisfaction in that section has been marked for some time but an outbreak was avoided until the South African government determined to supersede Colonel Maritz. He sent a defiant answer to the communication notifying him of the decision, arrested the loyal members of his command, joined the remainder to German forces and took the field for war.

The bait that caught the Dutch soldiers and citizens in the northwest was furnished by Germany, in the shape of a promise to aid in the establishment of a free republic, built up on the ruins of the British dependency. General Botha, premier of the Union, former Boer leader and now commander of the Union forces which he is to lead against German Southwest Africa, is expected to take severe measures to suppress the rebellion. Dutch citizens here insist that the majority of the Boers are adherents of Great Britain in the present war and that Maritz and his followers have been blinded by German praise and inducements.

Lord Buxton's proclamation which was published Monday in the Gazette extraordinary, to take effect Monday, provides for the administration of all the Cape provinces as if a state of war existed.

Britain Is Aroused.

London, Oct. 14.—Until Tuesday Great Britain had been able to concentrate all her attention and energies upon the prosecution of war by land and sea upon Germany and Austria. There was not a discordant note in the chorus of sympathy and support which arose from every part of the empire and was expressed in great gifts of men, money and supplies from Canada, India, Australia and from Africa.

For this reason the announcement by the official news bureau that a portion of the Dutch population in the Cape colonies had revolted against British control and had joined with German troops, fell as a severe blow to all England.

Germany Behind It.

There is no doubt that Germany is behind the revolt. It is remembered here now with bitterness that Colonel Maritz is the man who was sent by Great Britain in 1904, in command of a detachment of Boers, to aid the Germans in suppressing a revolt of the native Hereros in German Southwest Africa. Maritz, a general in rank at that time, was engaged by General Trotha, commander of the German forces, as military adviser, and commanded the main army in the expedition against the natives.

Apparently the connections made at that time with the Germans in Southwest Africa have been renewed and Maritz has yielded to the lure of being one of the founders of a new republic.

ROBINSONS' STEEP SINGLE TAX.

When United States Senator L. Y. Sherman spoke in Dixon last week he asked Raymond Robins to explain his position regarding the single tax, of which he is credited with being a supporter. When Mr. Robins spoke in Dixon last night he gave him evidence every indication that he is still an exponent of the single tax. His answer to the charge was: "Sherman says I want to confiscate the people's land. You know what that is. That's twaddle."

That is no answer at all. If he is not a believer in the single tax, he surely would have said so, but he did not say so. With a nonchalant wave of the hand the millionaire refuted the charge, "twaddle."

The situation now is that the people of Illinois have no assurance that if Raymond Robins gets into the United States Senate he will not work for the single tax and government confiscation of all land.

He said that Sherman said (Robins) wanted to confiscate the people's land. Sherman did not make that statement. Senator Sherman said that Raymond Robins wanted single tax, which means that the government would take the land.

The single tax idea is to have all of the taxes of the nation taken off of every other taxable thing and load upon the farms, homesteads, property and all real estate. The amount of the taxes would equal the rental or productive value of the land. The owners would have no use for the land if they had to pay as much out in taxes as they could get from the rent or the working of the land. The owners of the land in the United States would then be simply tenants of the government. The land that the farmers of Illinois have won by hard work and improved and invested their money in would be taken from them. The idea is the most preposterous thing that was ever put up for serious consideration. Mr. Robins appears to be a socialistic dreamer.

A DISTASTEFUL ACTION.

The scathing denunciation of the deceased Secretary of State, made from the platform of the Opera House at the meeting last evening by a member of the so-called Progressive (?) Party was to say the least, extremely discourteous.

Even in ancient times, the barbarous Romans respected their dead. Their motto: "De mortuis nil nisi bonum." (Of the dead say nothing but good) has been handed down through the ages as an epigram expressing an appropriate sentiment worthy of emulation. The mannerisms of the person who made the uncalled for remarks, who restlessly and uneasily paced to and fro across the platform were better calculated to remind his audience of the tales of the caged wild animals, eager for the fray, at the ancient gladiatorial combats, rather than to express the sentiments of peace which might naturally be expected from a member of a party posing as advocates of a moral uplift and "social justice."

Possibly the deceased Secretary of State did err. It is not within our

The Pilgrimage

By WALT MASON

Life is a weary road to travel, and hard upon the feet, if we are bound to snarl and cavil at every one we meet. We ought to bow to strangers passing, and not knock off their tiles, for they will answer sass with sass, or give us smiles for smiles. If you are quarrelsome and scrappy, nor prone to gain a friend, you'll find the pilgrimage unhappy and dismal to the end. But if you wear a smile that's winning, a smile eight inches deep, some other chap who sees you grinning, will straightway cease to weep. A smile like yours or mine's contagious, folks seeing it will say, "This life can't be so blamed outrageous, if pilgrims smile that way." A scowl, alas, is just as catching; afar its influence goes; folks seeing it will soon be hatching another brood of woes. This life's a tune that's full of jangles, a discord, lame and halt, if we go seeking rows and wrangles, and keep on finding fault. But it's an anthem, grand, inspiring, sweet as the angels' song, if we go down the road inquiring who we can help along.

province to determine, but the verdict of the coroner's jury, "Death, self-inflicted, while temporarily insane," would at least indicate the memory of the poor unfortunate man was entitled to sympathy, rather than to the vindictive abuse heaped upon him at a public meeting by one who poses as a leading member of the party which claims "social justice" as its cardinal principle.

ELIMINATING THE WIRE PILE.

The residents of East First street, around the ground that has been occupied by the much abused "wire pile," are smiling broad smiles of satisfaction and offering up hearty thanks, for the wire pile is disappearing.

The owner of the ground and the wire started within a day or two and has had a gang of men at work removing the offensive refuse from the spot. The corner is unrecognizable even now and when the job is finished it will be a thousand per cent better looking.

The owner of the property is now showing a disposition to do the fair thing and he is to be commended upon this at least. Probably he did not realize, until the recent election, what a number of persons objected. At any rate he has done what they asked him to and they should be satisfied, and are satisfied, we believe.

PEOPLES COLUMN

PROSPEROUS DIXON.

Traveling men tell us (and they should know) that Dixon is now taking the lead in a business way, over all towns in Northern Illinois. There's plenty of work for a man so inclined, and at good wages—no growling, no knocking—all seem contented; our only drawback is the scarcity of vacant houses for the many people who are coming to Dixon to make their homes. No doubt many houses will be built in the Spring to meet the demand. The coming New Year promises to be a busy one. There will be an awakening in real estate, we have not experienced for some time. Dixon is known as a town of homes—yet there are many now renting who could own a home if they but made up their minds to do so. What a satisfaction to a man, and more so to that man's wife, to live under their own roof, where the landlord cannot say, you must pay more rent or move, or inform you that this house is sold, you must look up another. And it's not an easy matter to find another at present. The trouble is, the majority of renters drift along, they seem to lack the ambition to better their conditions. If their income is ten dollars a week it all goes, no effort is made to save a dollar. A laboring man can own a home, by he and his wife deciding that they will save a certain amount each week, or month, put the savings in one of our savings banks, do not touch it, unless in case of a calamity—they will soon have enough to buy a lot, they can then easily borrow money to build a modest home, or they will often find comfortable homes for sale, where but a small payment down, is required, then monthly payments about the same as rent. But wife or mother must be prudent—it means self-denial—it means that if their income is twelve dollars a week, they must not attempt to dress their

BELGIUM—THE DOOR MAT OF HISTORY.

Hard as is Belgium's fate this year, when two million soldiers were fighting for standing room in it at one time, it is nothing out of the ordinary. For a thousand years Belgium has been the door mat before France and Germany, and the soldiers of a dozen nations have wiped their feet on it as they passed over.

The Romans began it by chasing out the Belgae. When Clovis, the Frankish king, died his sons fought over his kingdom and pretty nearly everyone in the Belgian country got stepped on during hostilities. The country prospered under Charlemagne, for he was an old home boy, the greatest citizen produced by Belgium soil. But after Charlemagne died the real trouble began.

Belgium was expanded until it covered Alsace, Lorraine, Holland and Normandy, and was then chopped up into fragments. It was given away piecemeal to dukes, barons, noble ladies and adventurers. A bishop got hold of it. His daughter married the King of Austria, and gave her country to him. Later it was married into Spain. France grabbed it twice. Holland revolted and attacked it. France

and Austria pulled and hauled at its provinces for a century. It was impossible to raise a crop of cabbages without having it squatted upon by an army which had picked out that spot in which to fight some far-off power. The Belgian country was the Reno of Europe. All the big battles were staged there.

The biggest of all, Waterloo, was fought fifteen miles from Brussels. Then, while the rest of Europe had peace, Belgium, after one thousand years of war, had to go through its birth struggle. Up to 1830 it had been Flanders, Brabant, Liege, the Netherlands and any one of a score of names. In 1830 it revolted against Holland, divorced itself from the Dutch with a mighty effort, threw the Dutch alphabet into the Scheldt, named itself Belgium after the original inhabitants, chose a king, elected a parliament, put up boundary lines and erected signs thereon saying to all the world, "Keep off the grass and do your fighting elsewhere."

The world has done it for almost eighty-five years, which has been Belgium's longest vacation from other people's troubles.

children as costly as their neighbors, whose income is twenty-five dollars a week. It means you must get out of the habit of doing all the shows and going to entertainments of pleasure only. A sober, industrious man will have no difficulty in paying out—he will get interested and regret he has delayed so long. Some men of roving disposition say—Dixon is all right, plenty of work in my line and fair wages, but I may not stay here or I would buy a home. They have no reas-

on for leaving the best town of its size in Illinois. They simply have the moving habit. An investment in a home is one of the best that can be made.

RAYMOND ROBINS IN SPEECH LAST NIGHT

Continued from Page 1

to elect himself United States senator. He said he was one of the men of the "last frontier" and told of his life as a poor boy and the hard work that he had done digging gold out of the frozen sands of the north with his own hands. He gave an interesting account of how he had carried one thousand pounds of food over a mountain range into the Valley of the Yukon, a small bit at a time, making many trips, when it was forty-two degrees below zero. His story of how he wore brogans to Washington and his boyish inspirations as he stood in his brogans on Pennsylvania avenue and looked at the government buildings and monuments, etc., was very touching.

Mr. Robins made a bitter attack on Roger Sullivan, likening him to Lorimer and calling him a variety of names. Mr. Robins also said that he had always been a Bryan man until the 1912 campaign and that during the first part of the 1912 campaign had been out making speeches for Woodrow Wilson, until he changed his mind and went Bull Moose.

He said that now that the Democratic party is in power the south is in power and declared that the Democratic tariff is a sectional tariff, the south and its products protected by the Democratic tariff and the north and west unprotected. He declared that idleness was abroad in the land.

Mr. Robins praised the initiative, referendum and recall in glowing terms.

He said that he had no stones to

throw at Roger C. Sullivan, but said that Sullivan had once offered him a job, he believed, to keep his mouth shut and also observed the biscuit king and made a fortune sand-bagging corporations. His arraignment of Sullivan was terrific.

He came to the subject of the Single Tax. He stepped lightly. Mr. Robins did not mention single tax. He did not deny that he was a Single Taxer. He only said this: "Senator Sherman says I want to confiscate the peoples' land. You know what that is. That's twaddle. They are attempting to lead you down a mere blind alley."

He did not even deny that he favored the confiscation of land. He just passed it off lightly with a wave of the hand, and "twaddle," "blind alley," etc. He did not mention or explain his name being on the stationery of the Joseph Fels Fund for single tax.

The most hearty applause Mr. Robins was accorded was his praise of President Woodrow Wilson on his handling of the Mexican trouble.

The people who heard Raymond Robins at the Opera House in Dixon last night, regardless of whether they agreed with his views or believed him not to be a practical man of practical ideas, or a dreamer, were in accord that his speech was a masterpiece in the art of handling words. He has a pleasing voice, grace on the platform and a very modest and self effacing manner. He claims that his love for his fellow man is his only interest in politics. He is very proud of his poor parentage and tells in detail the struggles of his younger days. He is now a very rich man.

The speech that Mr. Robins delivered was the same speech, almost word for word, that he delivered from the same platform in 1912, in Dixon, only at that time he never wanted to run for office and would never accept a nomination for any office.

FALLING HAIR MEANS DANDRUFF IS ACTIVE

SAVE YOUR HAIR! GET A 25 CENT BOTTLE OF DANDERINE RIGHT NOW.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application your hair will take on life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance; an incomparable gloss and softness, but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine downy hair—new hair—growing all over the scalp.

dead and died in the fields.

September 21
Got up at 6 o'clock. I went to my knitting room at 7:30. 19 poor girls came at 9 o'clock and several others during the day. With the exception of three or four girls, they knit badly. Fr. Scholz, however, is teaching them. We had to undo most of today's work. Poor souls, they are so thankful to have work and a warm place to sit. All look worn and pale and underfed. The girls who want to can go to the war-help kitchen and get their meals for 15 pf., so that with the mark today they can keep themselves fed until the war is over. There were three girls from one family. Their poor mother is a widow and has two small children still at home. Wrote to darling mother and Rica, and I was able to send the letters by a friend who is going to Holland. It is awful being out of letters from mother and home such a long time. Not a line for six weeks. Herr and Frau Dr. Urban dined with us. He is very busy for the Red Cross Lazarett train. It leaves here the end of the week for the field and is able to bring back 300 wounded. There are 1200 wounded in Hamburg.

September 22
In the battle before Rheims and Craonelle hills which are like forts were taken, also the village of Bethany. The attack against the out forts south of Verdun was a great success. In Belgium and in the east the situation is unaltered. From accounts in English papers we see that our submarines, Zeppelins and aeroplanes are giving the roast beef-eaters something to think about. With the exception of two in my knitting room who can knit socks very well, we have to teach the others; rather a hard task. My new housekeeper, Frau Cohrs, came today. She will take the entire charge of cooking for the Lazarett. The battle in the west is continuing. In the east the situation is unchanged. Went to the funeral of poor Lieutenant Carlos Gaken. The church was filled. The coffin, a simple one, was covered with most beautiful flowers and streams of black, red and white, our German colors. Frau Gayen's now only son and officer who is on leave after severe illness contracted in the field stood by his brother's remains. This poor fellow will join his regiment in a few days again. The priest's address was very beautiful, took the text, "Give God what is God's, give the Emperor what is the Emperor's." When the coffin was let into the grave the soldiers fired three volleys.

September 23
Received another letter from dear mother via Holland written September 7th. Wrote to mother and sent the letter by a gentleman going to Holland. Yesterday morning German submarine No. 9 sunk three English cruisers, the Aboukir, Hogue and Cressy, about 20 miles from Hook van Holland. 1600 out of 2500 men were lost. The U 9 has only 20 men and is in command of Captain-Lieut-

tenant Weddineg. The Pathfinder, which the English thought was destroyed through a mine was sunk by our submarine 21, under Lieutenant Hersing, our submarine escaping uninjured. Two post cards from Erwin today, one with the news that he had been awarded the Iron Cross for bravery. Had lunch at Alsterufer and spent the afternoon with my knitting girls, who are doing better work. Several new girls came today. Herr Kiewe called to see the girls and begged us to knit as many stockings as we could. Great need of stockings for our brave soldiers.

REPORT OF SONS DEATH IS FALSE

ELIAS JONES LEARNS THAT HIS SON LOUIS IS WELL AT MITCHELL, IND.

Word was received here a few days ago by Elias Jones that his son Louis was dead at Louisville, Ky., but gave no particulars. After telegraphing to Louisville and other places along the Mississippi and Ohio rivers and after a suspense which was terrible to the parents and relatives of the young man, a telegram was received today from a companion at Mitchell, Ind., saying that the young man was alive and well.

Jones left here some time ago with Jack Burton for a trip down the Mississippi river on a hunting and trapping expedition. Nothing was heard from them until this morning when a dispatch was received from Burton giving the joyous news.

The wire notifying his relatives of his supposed death was received from Louisville and stated that his death was due to typhoid fever, contracted during the trip down the river.

SHERMAN TRAIN GOES THROUGH LEE COUNTY

DIXON MEETING CANCELLED BECAUSE OF RECENT MEETING HELD HERE.

The special train carrying Senator L. Y. Sherman and the rest of the state republican ticket, went through Dixon at 2:15 this afternoon but no meeting was held, as the Dixon meeting, though advertised, had been cancelled last week by the Dixon republicans. The reason that it was thought unnecessary to hold a meeting here this afternoon was that Senator Sherman had made a speech in Dixon last week and the time could be put to a better use in other cities. A meeting was held in Amboy and Sublette this afternoon, as well as the Polo meeting, and all were reported to be highly enthusiastic and successful.

The admission to the Family theatre hereafter on Monday, Tuesday and Wednesday evenings, when the bill consists of pictures only, will be five cents, except when special features will be shown.

Dramatic Notes

FAMILY THEATRE

This evening the Family will have four reels of pictures, one a two reel subject, Rance Gentleman, dealing with a man who had committed a wrong and was compelled to leave the country. It is a story of intense interest and shows the struggle for the right and retaining his good name. The other subjects are comedies, one called The Meal Ticket, and the other The Ever Gallant Morris. The management calls special attention to the booking for Monday night when Rex Beech's famous story of The Spoilers will be shown. The picture is in eight reels and all the scenes were taken from the exact location of the story. The company having traveled from Nome, Alaska, to San Francisco.

OPERA HOUSE.

Mr. Simpson will have but one show tonight as he has given the latter part of the evening for rehearsal for the Hospital Benefit. Everyone wishing to see the entire four reels must be there at 7:30 sharp. Heading the program is a two-reel Rex comedy-drama, "A Prince of Bavaria" the story of love triumphing over the plans of a social climber.

"For His Father's Life" is a beautiful and exciting Elclair drama. "Wife's Busy Day" is a joker comedy with more than a few good hearty laughs.

There will be no pictures Thursday and Friday nights as the house is taken for the Hospital Benefit.

PRINCESS THEATRE.

Tonight the Princess will show two 2-reel features entitled "A Tale of the Northwest Mounted Police" a Broncho drama of the northwest mounted police in which they try to find out where the Indians are buying whiskey. A wonderful story of love and romance is interwoven. The other feature, "The Redemption of a Pal," is an American feature with Winifred Greenwood and Ed. Coxen in the leading roles. This is a sociological drama in which redemption learns a lesson from the underworld.

PRINCESS THEATRE.

Thursday night the 15th episode of The Million Dollar Mystery will be shown at the Princess. After the narrow escape of Braine and his followers in the 14th episode they remain under cover and their determination to gain possession of the treasure did not waver. While Norton is in town Florence receives a message that "Norton is seriously injured, come to the Queen hotel at once," and as she has Norton's welfare at heart she falls readily into the trap. Meanwhile Braine has attacked Florence's chauffeur and disguised in his clothes he drives up to the mansion to take Florence away. He tauto stops at the water side and Florence and Susan are dragged out and cowering with terror, Susan sees Florence put aboard a motor boat. Susan then notifies Jones and he in turn notifies Norton and as Norton rushes to the river he sees a

hydroplane which he hires and catching up with the boat orders Florence to jump and as she does so he helps her into the hydroplane thus saving her life. Meanwhile Jones is having a hard time as two of the conspirators break into the house and demand the hiding place of the treasure and Norton and Florence arrive just in time to save his life and the conspirators are arrested.

SAYS HER BROTHER ATTACKED MOTHER

(Continued from page 1)

But he remained her 'Pet' just the same.

"One evening," continued Mrs. Mick, "I came into the house for a visit. As I entered the dining room I saw that my brother was holding my mother down on the lounge and I heard her muffled cry, 'Pet, what are you putting into my mouth?' When he heard me he turned and came rushing at me. I turned to the kitchen where my father was, and 'Pet' stood there with his hands clenched over what looked like a bottle of dark fluid—and again he swore and threatened to kill us.

"We always had an idea that his mania was to poison my mother. He was always giving us some medicine which he said would benefit her and taking it from us again. Invariably he said he had given us horse medicine by mistake. Then he'd laugh.

Threatens Whole Family.

"Four days before mother died she had to jump out of her bed to remonstrate with him. He had taken Lillian by the throat. She had left her work in Chicago to come and nurse mother. Lillian begged him to let her alone, so that she could take care of her mother, and mother's plea added made him let her alone.

"The night mother died he bullied us. At 2 o'clock in the morning, as we sat with the neighbors in our father's cottage watching beside the body, he came in quietly and hung his hat on a nail. He had said earlier in the day, 'Well, when I get to you there'll be a few more to lay out after I get through this night.' When he saw the neighbors he looked astounded and went right out."

The Trey O' Hearts

Already the last of the freight was whisking off the trestle, its crew thus far unconscious of their loss.

And behind them the special was plunging forward at unabated speed.

There was no time to execute their plan of the first desperate instant—to run along the ties to safety on the solid earth: the distance was too great; they could not possibly make it.

With common impulse the two men glanced down to the bottom of the gully, then looked at each other with eyes informed by common inspiration. Barcus announced in a breath: "Thirty feet—not more."

Alan replied: "Can you hold the weight of the two of us for half a minute?"

Barcus shrugged: "I can try. We might as well—even if I can't."

While speaking, he was lowering himself between the ties.

"All right," he announced briefly.

With a word to Rose, Alan slipped down beside Barcus, shifted his hold to the body of the latter, and climbed down over him until he was supported solely by the grasp of his two hands on Barcus' ankles.

Instantly Rose followed him, slipping like a snake down over the two men till she in turn hung by her grasp on Alan's ankles, then released her hold and dropped the balance of the distance to the ground, a scant ten feet, landing without injury.

A thought later Alan dropped lightly to her side, staggered a trifle, recovered and dragged her out of the way.

Barcus fell with a heavy thump and went upon his back, but demonstrated his lack of injury by immediately picking himself up and jolting the others in a mad scramble for safety.

Overhead the special engine, hurtling onward like some titanic bolt, struck the caboose with a crash like the explosion of a cannon. It collapsed upon itself like a thing of pasteboard. That it had been constructed of more solid stuff was abundantly proved by the shower of timbers, splinters and broken iron that rained about the heads of the fugitives.

For all that, the gods smiled upon them for their courage: they escaped without a scratch.

HEAVY MEAT EATERS HAVE SLOW KIDNEYS

Eat less meat if you feel Backachy or have bladder trouble—Take glass of Salts.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to

FAMOUS LAUNCH IN CASE.

In Seattle Captain Johnson May Gloat to His Heart's Content. The steamer Mackinaw sailed from Nome, Alaska, with the famous launch Eagle aboard. The Eagle was taken to Seattle and put in a glass case, where the public may gaze to its heart's content, and Capt. E. W. Johnson may gloat over Josh R. McIntyre.

The launch was the cause of the long-drawn-out suit between Johnson and McIntyre for the possession of the famous Copper Gulch Mine No. 8, which Johnson finally won in court. Johnson and McIntyre engaged in the lightening business at Nome back in the days of the gold rush, and shipped a launch from Tacoma to do the work. The business did not pay, and the launch was beached. After lying on the beach for a year, Johnson took out the engines and placed them into other boats. In the course of time he traded one of the boats for a supposedly worthless claim. This claim is now the Copper Gulch No. 8, which produced \$1,500,000, and showed no signs of stopping. When the mine turned out to be a bonanza, McIntyre sued for a half interest, on the strength of his old interest in the launch sent from Tacoma.—Seattle Star.

Be angry just as seldom as ever you can. Never go to law. Be saving, never stingy. BRAVES FINISH OFF ATHLETICS

Hub Ball Team Wins Shortest World Series on Record.

FINAL GAME TAKEN BY 3 TO 1

Dick Rudolph Returns to Mound and Defeats Shawkey in Hurling Duel—Pennock to Rescue—Evers Great Factor in Last Game—Sox Even Up Series.

Poston, Oct. 14.—The Braves have finished the contract. The briefest of all world's series for the base ball championship has come to an end at Fenway park. It was only four games long and the Braves won them all. They beat the Athletics three to one. The last game was close, but once the Braves got going it was the beginning of the end. A sharp, penetrating rally in the mid game stage and the victory was theirs. The fourth and fifth innings contained all the battling there was that was productive, and the Braves, with their adaptability and trenchant methods, rammed home the winning counts in one short, decisive foray.

There were two out in the fifth inning and small prospect of anybody reaching first base when the Bostonians got to work and broke up the game. Redip, Moran and Evers were in the concentration of attack which carried the day. A hard, clean hit belched from the bat of each. Rudolph started the charge. Evers finished it. The latter's single rushed two runs to the plate, and the scoring for the day was done.

Evers Big Force.

Evers was the big force of the day in the home team's success. He batted in two runs and he scored the other one. His fielding was legendary, though he was only one of four Boston infielders who played their positions with skill as comely as it was effective. Rudolph pitched the Bostonians to their final victory.

Contest Errorless.

The contest was errorless. There were fumbles here and there but they were on difficult chances, fumbles on drives which were hits. The Athletics' infield was effective and steady but it did not do the dashing work of the others. The Athletics culled one or more hits off Rudolph in each of the first five innings. Rudolph was putting the first ball over often and the Athletics took to hitting the first ball. By this plan they had men on bases in all of the first five innings, but partly from Rudolph being at his best with a run threatening and partly to support which was as firm as granite, only one of the base runners reached home. The Athletics didn't make a hit in the last four innings and in that time only twelve of them faced Rudolph. On the Philadelphia side Shawkey did excellent work, and the Braves had to make their few hits count. But as Shawkey couldn't hold the Braves in the fifth and appeared to be at the end of his rope, Pennock, the southpaw, took the box in the sixth. He was in tip-top form and shut down entirely on scoring. The Mackmen used six pitchers in the series—Bender, Wyckoff, Plank, Bush, Shawkey and Pennock—and the last named was the only one on whom the Braves didn't score.

Crowd Mobs Winners.

The moment the game was over the Braves scurried for their bench, back of which is the exit to their dressing rooms, kicking their heels in the air, but hurrying to escape the crowd. They beat it to the privacy of their rooms with all haste, but one—Mann—didn't escape. A horde of shouting fans was at his heels, coming from all directions. They caught him, lifted him to their shoulders and mugged him up. His cap was wanted for a souvenir and his admirers did not let go of him until several cops came to his aid.

The last day's attendance was 34,265. The total receipts were \$62,653; national commission's share \$6,265; players' share, \$33,822.62; each club's share, \$11,277.54. The total attendance for the series was 111,009; total receipts for the series, \$226,739. The total share for each club was \$40,632.58, and the total players' share, \$121,906.94. Sixty per cent of the last named amount goes to the Boston players—\$73,140. The 40 per cent for the Athletics amounts to \$58,769.

Escaped Dub Class.

Players who hadn't made hits up to the last day, but who managed to get in one and escape a batting average of .000 were Oldring, Barry and Moran.

DOES BACKACHE WORRY YOU

SOME DIXON PEOPLE HAVE LEARNED HOW TO GET RELIEF.

How many people suffer from an aching back?
How few know the cause?
If it hurts to stoop or lift—
If you suffer sudden, darting pains—

If you are weak, lame and tired, Suspect your kidneys. Watch for nature's signal. The first sign may be a headache or dizziness,

Scanty, painful or too frequent urination, Nervousness or a constant, dead-tired feeling.

Avert the serious kidney diseases. Treat the weakened kidneys with Doan's Kidney Pills. A remedy especially for sick kidneys.

Endorsed in Dixon by your friends and neighbors.

N. W. Beal, 620 College Ave., Dixon, says: "For a long time I had kidney trouble and it showed itself in various ways. I had rheumatic twinges, my back was stiff and lame and after bending over, I could hardly straighten. When I was suffering intensely, I began using Doan's Kidney Pills, which I got at Leake Bros. Drug store. They gave me wonderful relief in a short time and I still use them, keeping my kidneys in good shape. All I said in praise of Doan's Kidney Pills some years ago holds good and I am glad to confirm that statement."

Mr. Beal is only one of many Dixon people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Beal had—the remedy backed by home testimony. 50c at all stores.
